Also clarifies that epi pens supplied by a school can be used for students (1) who have known medical conditions necessitating the use or availability of an epi pen and (2) who are already authorized to possess and self-administer their own medication, but may not be used as the sole medication supply for those students.

Amends GS 115C-238.29F(a) (regarding charter schools) and GS 115C-238.66(7) (regarding regional schools) to direct the Department of Public Instruction (DPI) to ensure that charter schools and regional schools comply with the provisions of GS 115C-375.2A regarding availability of epi pens at schools. Requires the board of directors of a charter school or a regional school to provide the school with an emergency supply of emergency epi pens necessary to carry out the provisions of GS 115C-375.2A.

Requires the Administrative Office of the Courts to adopt rules concerning transmitting information to NICS.

Amends GS 122C-54.1 to allow an individual over age 18 to petition for the removal of disabilities arising out of determinations or findings that prevent the purchasing, possessing, or owning of a firearm upon the expiration of any commitment. A medical provider that does so will be found in violation of this subsection unless the co-payment in question was waived, in full or partially, for any of the following reasons: (1) the waiver is authorized, (2) the provider decides on an individual basis that the collection of the co-payment amount would place a substantial financial hardship on the recipient, (3) the provider has made a good faith effort to collect the co-payment but the reasonable efforts fail, or (4) the provider is a health care facility regulated pursuant to GS Chapter 131E or GS Chapter 122C or is owned or operated by the State.
