Senate committee substitute makes the following changes to the 2nd edition.

Amends GS 95-127 (Definitions) to remove the definitions for *antineoplastic drug* and *hazardous drugs* added in the previous edition to the Occupational Safety and Health Act of North Carolina (OSHA). Adds a definition to OSHA for *antineoplastic agent*, defined as a chemotherapy drug or cytotoxic drug used to treat cancer patients and some non-cancer patients. Also amends the "whereas clauses" to conform to the changes to GS 95-127.

Amends proposed GS 95-156 to direct the Commissioner of Labor to adopt rules establishing requirements for handling antineoplastic agents in facilities where there is occupational exposure to those agents (was, establish requirements for the handling of antineoplastic and other hazardous drugs in health care facilities). Deletes provision that rules adopted under this section do not apply to an entity accredited by the Joint Commission on Accreditation of Healthcare Organizations or other recognized hospital accreditation body that has filed certain documentation regarding the accreditation process with the Department of Labor.

Requires the Commissioner to establish an advisory workgroup that includes hospitals, organizations representing health care personnel, and other interested stakeholders to develop the rules required by this act.
