H 869 (2017-2018) [CHANGE MEMBERSHIP OF MEDICAL BOARD](#). Filed Apr 21 2017, *AN ACT TO CHANGE THE MEMBERSHIP OF THE NORTH CAROLINA MEDICAL BOARD.*

Amends GS 90-2, which sets forth the membership of the North Carolina Medical Board. Currently the Medical Board consists of 13 members appointed by the Governor, with seven members being duly licensed physicians recommended by the Review Panel, and the remaining six members meeting provided specifications, including three public members.

This act reduces the total number of public members appointed by the Governor from three to one, with the Governor now appointing only one public member not subject to recommendation of the Review Panel pursuant to GS 90-3. Adds a new provision establishing that the General Assembly will now appoint two public members in accordance with GS 120-121, one upon the recommendation of the Speaker and one upon the recommendation of the President Pro Tempore. Makes the existing provision prohibiting a public member appointed by the Governor under subdivision (a)(2)(b) from being a health care provider or the spouse of a health care provider also applicable to a public member appointed by the General Assembly under new subdivision (a)(3). Makes organizational changes and conforming changes.

Provides that for the term of the public member appointed by the Governor expiring in 2017, that member must be appointed by the General Assembly upon the recommendation of the Speaker, and for the term of the public member appointed by the Governor expiring in 2018, that member must be appointed by the General Assembly upon the recommendation of the President Pro Tempore, with both appointments complying with GS 120-121. Provides that for terms expiring thereafter or as vacancies occur prior to the expiration of a term, members of the NC Medical Board are to be appointed in accordance with GS 90-2 as amended by this act. Applies to vacancies occurring after June 30, 2017.

Intro. by Rules, Calendar, and Operations of the House.

S 410 (2017-2018) **MARINE AQUACULTURE DEVELOPMENT ACT**. Filed Mar 28 2017, *AN ACT TO CREATE A PROGRAM FOR THE PERMITTING OF MARINE AQUACULTURE ACTIVITIES AND TO REQUIRE THE DIVISION OF MARINE FISHERIES OF THE DEPARTMENT OF ENVIRONMENTAL QUALITY TO REQUEST THE ISSUANCE OF FEDERAL RULES TO ALLOW MARINE AQUACULTURE IN FEDERAL WATERS OFF THE COAST OF THE STATE AND BY IMPOSING ADDITIONAL TRANSPARENCY REQUIREMENTS ON THE MEMBERS OF THE MARINE FISHERIES COMMISSION.*

Senate committee substitute makes the following changes to the 1st edition.

Deletes proposed GS Chapter 113, Article 16A (Marine Aquaculture).

Amends proposed GS 113-216 (New leases for marine aquaculture) to delete the requirement that a person obtain a Marine Aquaculture Propagation and Production Facility License for the Secretary of Environmental Quality (Secretary) to grant that person a marine aquaculture lease for the public bottom. Amends the standards for determining areas suitable for marine aquaculture by requiring the leased area to not contain a natural commercially significant shellfish bed (currently, may not contain a natural shellfish bed), and requiring the marine aquaculture to not unreasonably interfere with lawful utilization of other resources or the rights of riparian owners (currently, must be compatible with lawful utilization, and may not impinge on rights of riparian owners), and adds a new requirement that the marine aquaculture operation would not unreasonably interfere with public access and use of waters of the state, taking into account the potential economic impact of the operation. Deletes the prohibition on the Secretary granting new leases in areas heavily used for recreational purposes. Directs the Secretary to enter into a memoranda of agreement with the US Army Corps of Engineers or other agency to provide appropriate standards and markings for marine aquaculture structures to avoid impairment of navigation. Deletes the requirement that the Secretary's investigation of the bottom proposed to be leased consider the terms of the Marine Aquaculture Propagation and Production Facility License issued by the Department of Agriculture and Consumer Services. Requires the Secretary to notify the applicant of an intended action on a lease application within 60 days (currently, within a reasonable time). Amends the list of circumstances requiring the secretary to commence termination of a lease to exclude suspension of marine aquaculture activities as part of a disease control or biosecurity plan from the types of failure to utilize the leasehold that would result in a termination.

Amends proposed GS 113-217 (Lease of superjacent water column for marine aquaculture). Amends the standards for determining suitable areas for water column use to require significant levels of fishing or hunting activities for those activities to disqualify the water column from lease (currently, does not specify the amount of activity that disqualifies the water column from lease).

Enacts new GS 113-218 (Protection of private marine aquaculture rights). Prohibits persons who are not the holder of a lease under GS Chapter 113, Article 16B, from taking or attempting to take marine species being produced under the license and associated lease from any privately leased, franchised, or deeded marine aquaculture operation without authorization of the holder and with actual knowledge that it is a leased area. Creates a presumption of actual knowledge in circumstances where the area is posted and identified, as specified. Violation is a Class A1 misdemeanor, with a fine of up to \$5,000. Provides requirements for the contents of a written authorization.

Amends GS 143B-289.54 (regarding the Marine Fisheries Commission). Directs the Commission to establish official email accounts for all Commission members, to be used for Commission communication, communications to and from which are considered public records. Provides that electronic communications among a majority of the Commission is considered on official meeting. Failure to comply is subject to investigation by the State Ethics Commission as unethical conduct, and removal as misfeasance.

Amends the act's title.

S 434 (2017-2018) [AMEND ENVIRONMENTAL LAWS 2](#). Filed Mar 28 2017, *AN ACT TO AMEND CERTAIN ENVIRONMENTAL AND NATURAL RESOURCES LAWS*.

Senate committee substitute makes the following changes to the 1st edition.

New Section 1.1 repeals Part 2G (plastic bag management) of Article 9 of GS Chapter 130A, which banned plastic bags in certain coastal areas. Makes conforming changes to GS 130A-22 by removing related penalty provisions. Repeals Section 13.10(c) of SL 2010-31 (requiring in part that the Division of Waste Management and the Division of Environmental Assistance and Outreach monitor plastic bag use reduction resulting from Part 2G and report on the ban's impacts to the Environmental Review Commission on or before January 15, 2012). Effective July 1, 2017.

Amends Section 2 to make a technical change.

New Section 2.1 directs the Environmental Management Commission (Commission) and the Department of Environmental Quality to implement the Protection of Existing Buffers Rule, as provided in the act, until the effective date of the revised permanent rule that the Commission is required to adopt pursuant to the act. Provides that the Protection of Existing Buffers Rule means 15A NCAC 02B .0267 (Jordan Water Supply Nutrient Strategy: Protection of Existing Riparian Buffers). Requires the Commission to exempt from the applicability requirements of the Protection of Existing Buffers Rule any publicly owned spaces where it has been determined by the head of the local law enforcement agency with jurisdiction over that area that the buffers pose a risk to public safety. Directs the Commission to adopt a rule to amend the Protection of Existing Buffers Rules substantively identical and consistent with the above described provision. Provides that these adopted rules are not subject to Part 3 of Article 2A of GS Chapter 150B and become effective as provided in GS 150B-21.3(b1) as though 10 or more written objections had been received as provided in GS 150B-21.3(b2). Provides that new Section 2.1 expires when permanent rules adopted as required by the Section become effective.

Amends Section 3, enacting new GS 113-201(d), to require the Secretary of Environmental Quality to only issue nontransferable leases within designated Shellfish Aquaculture Enterprise Areas (previously, limited the issuance of nontransferable leases within the Areas to NC residents).

Amends Section 5 to delete the provisions appropriating funds to the North Carolina Sea Grant at North Carolina State University (Sea Grant) to study existing science regarding the current and projected future status of river herring populations in state waters.

Deletes previous Section 7 of the act, which amended GS 113-129 to provide a list of invasive species, and enacted GS 113-292.1 (Control of invasive species).

New Section 7 amends GS 113B-4 to authorize the Lt. Governor to appoint a designee to serve as the chair of the Energy Policy Council in the Lt. Governor's place.

New Section 7.1 amends SL 2016-94, Section 14.13(c), to require the entity, designated under that Section to conduct a study on Falls Lake, to report its final results by December 31, 2023 (was, December 31, 2021), and its second interim update by December 31, 2021 (was, December 31, 2020). Amends Section 14.13(d) to direct the Environmental Management Commission to begin rule readoption for the Jordan Lake Water Supply Nutrient Strategy within six months after receiving the completed study and final recommendations prepared under Section 14.13(c), and for Falls Water Supply Nutrient Strategy either upon receipt of the completed study under Section 14.13(c), or December 31, 2024, whichever is earlier. Amends Section 14.13(h) to continue the effectiveness of provisions of Falls Lake rules which establish Stage I reduction actions and goals until the Falls Lake rules under Section 14.13(d) become effective, and delays the due dates for reduction actions and goals to be completed by

December 31, 2020, as well as those identified as Stage II in the Falls Lake rules, until Falls Lake rules modified under Section 14.13(d) become effective.

New Section 7.2 amends SL 1999-329, Section 7.1, deleting the provisions authorizing the Environmental Management Commission to adopt temporary rules to protect water quality standards and uses for the Catawba River Basin. Directs the Environmental Management Commission to repeal 15A NCAC 02B .0243 (Catawba River Basin: Protection and Maintenance of Existing Riparian Buffers) by December 1, 2017, and prohibits enforcement or implementation of that rule until it is repealed.

New Section 7.3 directs the Director of the Division of Energy, Mineral, and Land Resources to issue a Director's Certification in fulfillment of coastal stormwater permitting requirements for any subdivision meeting three listed requirements, including that the subdivision's declaration of covenants was recorded with the Register of Deeds in 1993.
