Amends GS 159G-22 to establish the Viability Utility Reserve (Reserve) account within the Water Infrastructure Fund to receive appropriated State funds. Specifies that credited revenue to the account is neither received from the federal government nor provided as a match for federal funds. Directs the Department of Environmental Quality (DEQ) to establish accounts within the Reserve to administer grants for public water systems or wastewater systems owned by local government units.

Amends GS 159G-30 to include the administration of grants made from the Reserve, through the Division of Water Infrastructure (Division), in DEQ's responsibilities. Makes clarifying and technical changes.

Amends GS 159G-31 to establish that a local government unit, as now defined, is eligible to apply for a grant from the Reserve.

Amends GS 159G-32 to specify five authorized uses for grants from the Reserve, including rehabilitating existing public water or wastewater infrastructure, decentralizing an existing public water or wastewater system, and funding a study of rates, asset inventory and assessment, or merger and regionalization options.

Enacts GS 159G-34.5, detailing three types of authorized Reserve grants: (1) an asset assessment and rate study grant, (2) a merger/regionalization feasibility grant, and (3) a project grant. Authorizes Reserve grants to be awarded to a regional council or government or a regional planning commission if DEQ and the Local Government Commission determine it is in the best interest of the local government unit. Requires separate accounts in the Reserve for each type of grant.

Amends GS 159G-35 to require the Local Government Commission and the State Water Infrastructure Authority (Authority) to jointly develop evaluation criteria to review grant applications and award grants from the Reserve as provided in GS 159G-39, as amended. Makes clarifying changes.

Specifies that grant availability is limited to the extent that other funding sources are not reasonably available to the applicant. Caps grants from the Reserve to any single local government unit at \$15 million, and at \$30 million where two or more governmental units are merging into a single utility.

Expands the application provisions set forth in GS 159G-37 concerning loans and grants from other Reserves under the Chapter to include applications for grants from the Reserve.

Amends GS 159G-39 to require the Local Government Commission to approve the grant award and terms before a grant can be awarded. Authorizes DEQ and the Local Government Commission to impose specific performance measures or conditions on a Reserve grant, in their discretion.

Enacts GS 159G-45 to require the Authority and the Local Government Commission to develop criteria for assessment and review of local government units to identify distressed units, defined as a public water or wastewater system exhibiting signs of failure to identify or address those financial or operating needs necessary to enable that system to become or to remain a local government unit generating sufficient revenues to adequately fund management and operations, personnel, appropriate levels of maintenance, and reinvestment that facilitate the provision of reliable water or wastewater services. Details five components which the criteria should address, including whether the public water or wastewater system has an established, operational, and adequately funded program for its repair, maintenance, and management. Requires distressed units to take certain actions, as described, including developing an action plan for short- and long-term infrastructure repair, maintenance and management, continuing education of the governing board and system operating staff, and long-term financial management. Also requires distressed units to conduct an asset assessment and rate study, and participate in a training and

educational program. Provides that once the requirements are met, the local government unit is no longer identified as a distressed unit for the remainder of that assessment and review cycle. Requires the assessment and review cycle of local government units to be no less than every two years, with frequency to be established by the Authority and the Local Government Commission.

Effective October 1, 2020.

Provides for the the transfer of assets, liabilities, and obligations by resolution of the Commission, as specified, and dissolving a unit.
