H 77 (2019-2020) [DOT 2020-2021 FY BUDGET/GOVERNANCE. \(NEW\)](#) Filed Feb 13 2019, *AN ACT TO ADJUST THE DEPARTMENT OF TRANSPORTATION CERTIFIED BUDGET FOR THE 2020-2021 FISCAL YEAR AND TO IMPLEMENT GOVERNANCE MEASURES AND OTHER MODIFICATIONS RELATED TO THE OPERATIONS OF THE DEPARTMENT.*

Senate amendment makes the following changes to the 5th edition.

Part II

Modifies the following appropriations. Reduces the amount appropriated for maintenance in DOT's 2020-21 Current Operations Highway Fund schedule from \$70,777,925 to \$65,715,093. Further reduces the amount appropriated for aviation in DOT's 2020-21 Current Operations Highway Fund schedule from \$13,745,222 to \$8,682,390.

Part III

Reduces from \$112,221,003 to \$107,158,171 the amount appropriated from the Highway Fund that must be used for General Maintenance Reserve and Contract Resurfacing. Achieves this outcome by reducing the non-recurring appropriation for Contract Resurfacing from \$28,055,251 to \$22,992,419, with a revised net appropriation of \$558,674,899 (was \$563,737,731).

Further reduces from \$181,921,003 to \$176,858,171 designated appropriation reductions to DOT from the Highway Fund. In particular, the reduction of \$8,878,022 in nonrecurring funds to Commercial Airport Funds is lowered to \$3,815,190, with a revised net appropriation of \$71,184,810 (was \$66,121,978).

Part IV

Modifies the act's GARVEE Bond provisions as follows. Directs DOT to continue to obligate federal funds in accordance with the Master Trust Indenture (MTI), pursuant to (i) the memorandum of agreement (MOA) reached between DOT and the Federal Highway Administration and (ii) the MTI between the State and the Master Trustee named in the MTI that secures all outstanding GARVEE Bonds. Further directs DOT, except as prohibited by the MTI or MOA, to use other legally available federal funds to fund and maintain a GARVEE/Federal Repayment Reserve Fund equal to the immediately ensuing payment of only interest, or both principal and interest, on all outstanding GARVEE Bonds. Requires DOT to use federal funds only for payment of debt service on GARVEE Bonds. Retains definition of *currently existing project* as a project that was in the process of design or construction as of June 1, 2020.

Modifies the proposed changes GS 136-44.2E(c) to require the Secretary of Transportation to access and use funds in the Emergency Reserve in a manner that ensures the funds are eligible for federal reimbursement (previously required the Secretary to ensure that Emergency Reserve funds were used in a manner that would not jeopardize federal reimbursements for disaster-related expenses).

Amends the proposed changes to GS 143C-6-11 to exempt personal services instead of salaries from DOT budget reductions caused by the depletion of funds allocated for snow and ice removal and emergencies. Retains the act's other revisions to G.S. 143C-6-11, which together require DOT, in coordination with the Office of State Budget and Management (OSBM), to reduce by the same percentage the budget for every department division, grant-in-aid, and category of expenditures to pay for any unanticipated expenditures for snow and ice removal and emergencies.

Allocates \$5,062,832 to Wilmington International from Commercial Airport Funds.

Corrects an internal cross-reference in Section 4.14(a).

Deletes the proposed change to GS 143B-350(B)(1) that would have allowed more than two members of the Board of Transportation to reside in the same highway division.

Substitutes "Transportation Oversight Manager" for "Director of Transportation Budget" throughout proposed GS 143C-6.11.1 (Department of Transportation Spend Plan).

Amends Section 5.5 of the act to change the title of a transferred position from "Director of Transportation Budget" to "Transportation Oversight Manager." Eliminates the requirement that the person in that position report to the State Budget Officer. Directs the Transportation Oversight Manager to ensure that DOT executes its budget in accordance with all statutes governing DOT finances, not just the State Budget Act. Directs DOT to give full access to, and training on, all systems so that the OSBM can perform proper oversight. Previously the act directed DOT to give the Director of Transportation Budget full access to, and training on, all financial systems utilized by DOT to the extent necessary for the Director to perform his or her duties. Makes conforming changes.

Directs the OSBM, rather than the Director of Transportation Budget, to work with DOT to prepare and submit the reports required by new GS 143C-6-11(p).

Provides that, if Section 2.5 of Senate Bill 750 of the 2019 Regular Session becomes law, section 4.16 of the act is repealed. Section 4.16 allows DOT's Ferry Division to use up to \$1,146,179 to lease and operate a ferry vessel for operation between Hatteras and Ocracoke.

Requires all totals in the act to be adjusted in accordance with the amendments made.

(NEW)** Filed Apr 30 2020, *AN ACT TO EXPEDITE OCCUPATIONAL LICENSURE FOR MILITARY SPOUSES; TO PUBLICIZE LICENSURE INFORMATION; TO REPORT DATA REGARDING APPLICANTS WHO ARE MILITARY SPOUSES AND APPLICANTS THAT HAVE MILITARY TRAINING, AS RECOMMENDED BY THE JOINT LEGISLATIVE PROGRAM EVALUATION OVERSIGHT COMMITTEE; AND TO ESTABLISH THE INTERSTATE COMPACT FOR THE PRACTICE OF AUDIOLOGY AND SPEECH PATHOLOGY.*

Senate committee substitute makes the following changes to the 2nd edition.

Part I

Deletes the previous content of Part I and now provides the following.

Amends GS 93B-15.1 regarding licensure for individuals with military training and experience and licensure by endorsement for military spouses. Expands the statute to include licensure by State agency licensing boards. Shortens the time period by which an occupational licensing board or state agency licensing board must either issue a license, certification, or registration, or notify a military-trained applicant when their military training or experience does not satisfy the necessary criteria, from 30 days to 15 days after receiving an application. Also shortens the time by which the board must notify an applicant when the applicant has a pending complaint from 30 days to 15 days following the board receiving written notice of the disposition of the pending complaint. Makes the same changes to the those time periods as they apply to military spouse applications. Establishes similar provisions regarding applications by military spouses. Requires temporary practice permits to a military-trained applicant or military spouse meeting the specified requirements to be issued within 15 days after receiving an application. Requires the practice permit to be issued using the same information provided by the applicant in the licensure application. Allows a temporary practice permit to be denied or revoked for a pending complaint after providing the required notice. Additionally, requires the Secretary of the Department of Military and Veterans Affairs to publish on the Department's website both documents occupational licensing boards are required to publish on its website under the statute (previously, required licensure criteria to be published on the Department's website, but did not place this responsibility on the Secretary). Tolls the issuance or notification time periods for boards requiring applicants to submit to a criminal background check until the board receives the completed record check.

Amends GS 93B-2 regarding annual reporting requirements for occupational licensing boards and State agency licensing boards. Adds to the required contents of the annual reports, requiring boards to report on the following data for both military-trained applicants and military spouses: the number of applicants, the number granted a license, the number denied a license for any reason, and a summary of the reasons for denial. Prohibits disclosure of any identifying information of any applicant in reporting this information. Additionally, amends GS 93B-15.1 to require the State Board of Education to report this same information regarding teacher licensure for military-trained applicants and military spouses. Lastly, amends GS 93B-2 to require all boards to annually electronically file the information collected on military-trained applicants and military spouses with the Secretary of the Department of Military and Veterans Affairs.

Requires each occupational licensing board and State agency licensing board, by October 31, 2021, to include the data now specified under GS 93B-2, for fiscal year 2019-20 in the required annual reports.

Part II

Makes technical changes to proposed Article 2, Interstate Compact for Audiology and Speech Pathology, in GS Chapter 93B. Changes the effectiveness of Part II, now conditioned on at least 10 states enacting the Compact (was, effective on the date the act becomes law). Directs the Board of Examiners for Speech and Language Pathologists and Audiologists to report to the Revisor when this qualifying event occurs.

Part III. Sales and Use Tax Changes

Amends GS 105-244.4A, as enacted in SL 2020-6, establishing a grace period from sales and use tax enforcement actions for the sale of certain digital property by certain continuing education and professional development providers. Makes a technical correction.

Part VI. Tax Enforcement and Administration Changes

Modifies the proposed changes to GS 105-241.8 to set the statute of limitations for failure to remit trust taxes at the later of ten years after the date of the return or ten years after the taxpayer filed the return (previously, allowed for assessment at any time).

Authorizes the Department of Revenue to use up to \$500,000 of the funds generated in 2020-21 from the collection assistance fee to implement Section 8.1 of SL 2019-246, regarding electronic recognition of power of attorneys.

House committee substitute deletes the content of the 2nd edition and now provides the following.

Part I

Section 1

Amends GS 14-234(d1), which sets forth an exception for certain public officers from the prohibition against public officers or employees benefiting from public contracts. Increases the maximum allowable contract amount in a 12-month period under the exception from \$40,000 to \$60,000 for contracts for goods or services (other than medically related services) between the village; town; city; county social services board; county or city board of education; local health board or area mental health, developmental disabilities and substance abuse board; or public hospital and one of its officials, as described, approved by resolution of the governing body as required by existing law.

Section 2

Requires that Section 2902.6 of the NC Building Code and Table 403.1 of the Plumbing Code be implemented to no longer require drinking fountains for an occupant load of 30 or fewer, only require one water closet for business occupancies with an occupational load of 30 or fewer, and no longer require a service sink for business and mercantile occupancies with an occupant load of 30 or fewer. Requires the Building Code Council to adopt rules to amend Section 2902.6 of the Building Code and Table 403.1 of the Plumbing Code consistent with this provision.

Section 3

Directs all occupational licensing boards that require continuing education to study any available options offered for online continuing education. Requires each licensing board's study and report to (1) list and describe options available to each licensee or an explanation as to why no online methods are offered, (2) include the approximate number of offerings made available for each method and associated costs, and (3) include a description of access by the licensee to each method. Requires the licensing boards to report to the specified NCGA committee and division by December 1, 2020.

Section 4

Enacts GS 160A-386.6 (concerning cities) and GS 153A-341.4 (concerning counties) to authorize a city or county to establish a process to permit *temporary event venues*, defined as an existing publicly or privately owned building or structure suitable for use as a site for public or private events relating to entertainment, education, marketing, meetings, sales, trade shows, and any other activities or occasions authorized by city or county ordinance, and limited to 72 hours. Allows the temporary event venue to be considered as a permitted accessory use in any zoning district and not considered a zoning map amendment. Allows only one temporary event venue per lot or parcel of land, and limits permitted venues to 24 temporary events in a calendar year. Details requirements for ordinances authorizing temporary event venues, including prescribing the process for persons seeking a temporary event venue permit or a renewal. Specifies that issuance of a temporary event venue permit is not a quasi-judicial act. Allows cities and counties to charge up to \$100 for an initial permit and up to \$50 for a renewal. Allows the city or county to require any concerns from the inspection to be addressed with reasonable measures and to require the use of temporary toilet facilities. Exempts permitted temporary event venues from requirements of the Building Code or any local variants. Requires compliance with federal laws, rules, and regulations. Directs the Building Code Council to create an inspection checklist for cities and counties to use. Allows cities and counties to conduct inspections and issue permits prior to the Council's promulgation of the checklist. Provides parameters for instances in which permittees seeking rezoning of the parcel to a zoning district that would allow a permitted use of the venue for events of the type authorized by a temporary event permit. Makes conforming changes to GS 143-138 (concerning the State Building Code) and GS 160A-383.1 (concerning city zoning regulations for manufactured homes). Effective October 1, 2020.

Section 5

Requires the Division of Childhood Development and Early Education of the Department of Health and Human Services to post the following on its website: (1) education opportunities for kindergarten offered by local school administrative units, (2) educational opportunities for kindergarten offered by charter schools, and (3) scholarships for enrollment in non-public schools provided under Part 2A of Article 39 of GS Chapter 115C. Designates the Superintendent of Public Instruction as an applicable elected representative (meaning an elected official of a governmental unit having jurisdiction over the area in which a charter school facility is located) who may approve the issuance of one or more private activity bonds to finance or refinance a charter

school facility after a public hearing following reasonable public notice. Defines *charter school facility* as real property, personal property, or both used or intended for use in connection with the operation of a charter school.

Section 6

Amends GS 130A-294(a4), providing that a life-of-site permit will remain valid until its expiration date, and a sanitary landfill may continue to operate, if the owner or operator substantially complies with the terms of the local government approval or franchise agreement. Eliminates the requirement that the owner or operator must remain in compliance with the terms until the permit expires.

Section 7

Amends Section 13.2 of SL 2018-5, as amended, which requires up to \$2 million of the funds credited to the Inactive Hazardous Sites Cleanup Fund to be used by the Division of Waste Management to provide a matching grant to Charlotte Motor Speedway LLC for remediation activities at the Speedway, now providing for a 1:1 rather than 1:2 match of State dollars to non-State dollars by the grant.

Section 8

Requires the Department of Environmental Quality to study and report on the need for additional positions and funding, and possible changes to laws, that would be necessary to expand the Department's express permitting programs to encompass additional types of permits typically required for job creation, real estate development, and redevelopment activities. Requires a report to the specified NCGA committees and division by December 1, 2021.

Section 9

Amends GS 159G-23 to modify and add to the considerations the Division of Water Infrastructure (Division) is required to examine when evaluating applications for loans and grants from the Wastewater Reserve or the Drinking Water Reserve. Concerning priority for a project that improves designated impaired waters of the state, adds that greater priority is to be given to projects that improve designated impaired waters of the state that serve a public water supply for a *large public water system*, defined as serving more than 175,000 service connections. Adds that consideration for priority is to be given to projects improving regional coordination (previously, priority for local water supply plans that are better coordinated with respect to the State water supply plan). Lastly, adds that consideration for priority is to be given for wastewater system improvements made by a local government unit in order to protect or preserve the water supply of a neighboring local unit that has a lower poverty rate, lower utility bills, higher population growth, higher median household incomes, and lower unemployment. Applies to applications for loans or grants from the Wastewater Reserve or the Drinking Water Reserve received by the Division on or after July 1, 2020.

Section 10

Amends GS 143-215.54 to add aquaculture to the authorized uses for flood hazard areas without a permit so long as the use complies with local land use ordinances and any other applicable laws and regulations.

Section 11

Amends GS 83A-13 to exempt from architectural license for the preparation, sale, or furnishing of plans, specifications, and related data, or for the supervision of construction under such, of an institutional or commercial building that does not have a total value exceeding \$200,000 (was, \$90,000) or the total building area does not exceed 3,000 (was, 2,500) square feet in gross floor area. Requires that the information be provided to the Committee by March 31, 2021.

Section 13

Amends GS 117-28.1(a), authorizing easements owned or used by electric membership corporations to be used to supply high-speed broadband in addition to electrification. Specifies that the subsection does not have any affect on any obligation of the corporation or its wholly owned subsidiary to comply with any applicable requirements related to notice, safety, or permitting when constructing or maintaining lines or broadband fiber on, over, under, or across property owned or operated by a railroad company.

Section 14

Enacts GS 160A-383.1(g) to authorize cities to require by ordinance that manufactured homes be installed in compliance with the Set-Up and Installation Standards adopted by the Commissioner of Insurance, so long as the city does not require a masonry curtain wall or skirting for manufactured homes located on land leased to the homeowner. Effective October 1, 2020.

Section 15

Adds identical authorizations for licensed dealers to obtain a limited registration plate on behalf of a person purchasing a vehicle, notwithstanding obligations owed, to GS 20-54(6), (10), (11), (12), and (13), which prohibit the DMV from issuing vehicle registration or titles, or transfer registration for: (1) vehicles not in compliance with vehicle inspection requirements or unpaid outstanding related penalties; (2) owners with outstanding tolls, fees, or penalties assessed by the NC Turnpike Authority; (3) owners with outstanding fines or penalties resulting from failure to stop for a school bus; (4) owners with outstanding fees or penalties resulting from a lapse in financial responsibility for the operation of the vehicle; and (5) owners with outstanding fees or penalties resulting from violations of vehicle size, weight, construction, and equipment restrictions.

The study is to address the economic impact to consumers of any changes in the law recommended by the Division and consider any other issues deemed relevant to the title and registration of salvage vehicles. Requires the Division to report its findings and recommendations to the specified NCGA committees and division by March 1, 2021.

Section 17

Directs the Division of Emergency Management to consult with specified entities and study the needs of law enforcement, emergency medical and emergency management personnel, and firefighters to improve access to or within the interstate system in the state for the benefit of public safety. Maintains the requirement for successful completion of a licensure examination in architecture. Concerning licensing by reciprocity, requires an individual to hold a

certified record (was, a certificate of qualification) issued by the National Council of Architectural Registration Board (NCARB) in addition to holding a current architect license from another state or territory. Specifies that the Board's authority to waive the NCARB certified record requirement is in the Board's discretion.

House committee substitute makes the following changes to the 1st edition.

Enacts GS 105-244.4B to provide forgiveness of certain sales tax assessments of Continuing Care Retirement Communities (CCRC). Allows the Secretary of Revenue to forgive 100% of a sales and use tax assessment against a taxpayer who requests relief for State and local sales and use taxes and waive any penalties imposed as part of the assessment when the assessment is the result of an audit of the taxpayer by the Department of Revenue (Department), so long as all of the 8 factors listed apply. Included in the list is that the taxpayer remitted all the sales and use taxes it collected during the period, had not been directed by the Department in a prior audit to collect sales and use taxes in the circumstance that is the basis of the assessment as reflected in the written audit comments in the prior audit, and the taxpayer has not received other specific written guidance from the Department advising the taxpayer to collect sales and use taxes that are the bases of the assessments for which the taxpayer seeks reduction. Provides procedures that the taxpayer must meet for requesting the reduction. Applies to the following for a tax period ending prior to January 1, 2021: a proposed assessment or portion of a proposed assessment; an assessment that becomes collectible under GS 105-241.22; a pending request for review case; and a pending contested case hearing at the Office of Administrative Hearings. Excludes a refund for sales or use taxes that were originally collected and remitted to the Department.
